

CartWheel::Physics::CollisionDetectionPrimitive

```
classDiagram
    class CartWheel_Phy_PlaneCDP["CartWheel::Physics::PlaneCDP"]
    class CartWheel_Phy_CDP["CartWheel::Physics::CollisionDetectionPrimitive"]
    CartWheel_Phy_PlaneCDP --|> CartWheel_Phy_CDP
```

The diagram illustrates a class hierarchy. At the bottom is a light gray box labeled 'CartWheel::Physics::PlaneCDP'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'CartWheel::Physics::CollisionDetectionPrimitive'. This indicates that 'PlaneCDP' inherits from 'CollisionDetectionPrimitive'.
